	Karlstad University	RWTH Aachen University	University of Wisconsin-Madison	Sorbonne Université (under confirmation)	Universidad Politécnica de Madrid
Faculties/ Schools/ Depts that will accept Tokyo Tech SERP students at your Institute	Department of Engineering and Physics	Faculty of Mathematics, Computer Science and Natural Sciences Faculty of Civil Engineering Faculty of Mechanical Engineering Faculty of Georesources and Materials Engineering Faculty of Electrical Engineering and Information Technology	College of Engineering	The Faculty of Science & Engineering	All the faculties
Months when your institute can accept Tokyo Tech students	After September (This subject to be changed due to corona situation)	Flexible, since research		Study period should be A) May, June and July or B) September, October and November	Closed for holidays in August
Maximum number of nominees per year	3 （We may have 3 different available projects during the autumn 2021. Please refer to the note.）	6	3	5	3
Requirements for short-term (3 months), research-oriented (NO course work) int'l students	1. Students need to be registered at Karlstad University 2. Students have to submit the attached documents 3. Language: English 4. Visa: Tourist (To be confirmed) 5. Students who have completed the last year of the undergraduate or have completed the first year of the graduate program.	Student visa not required for a stay of less than 90 days.	1. J1 visa 2. TOEFL 80 (only as a guide)	● Master level at Tokyo Tech ● Applicants must show proficiency in English or French language: level B2 minimum within the European reference frame, also called CEFR (which corresponds to TOEFL with minimum score 80 / 120 or IELTS with minimum score of 6,5 / 9). An official certificate, such as TOEFL or IELT, is not compulsory, but the student must produce at least an attestation (a letter from the department or the institution) stating his level in English or French. All research projects can be conducted in English.	VISA for more than 3 months
Is it necessary of acceptance consent from a host professor of your Institute prior to application, or will your side arrange a laboratory based on our students' research plan or request?	It is necessary that the student from Tokyo Tech contact Jorge Solis (jorge.solis@kau.se) prior to the application.	Students have to find their own supervsior: Documents for finding a supervisor 1) Motivation letter; 2) Research plan; 3) CV; 4) Support letter from home university supervisor; 5) Verification of Student Status at Home Institute	We will arrange a supervisor and the laboratory based on the inbound students' research plan.	Acceptance from the institute is not required prior to application/nomination: Sorbonne SERP Admin will put the student in contact with researchers and professors at the institutes working in areas related to the student's research intention. In the present case (student in chemistry, interested in applications in the automobile domain), possibilities are either at Institut d'Alembert (research in the domain of energy systems and combustion) or in one of our research institutes in Chemistry.	We will look for the supervisor according to his/her motivation letter, research plan and CV

Notes	University & Project Information for SERP2021			Considering the very peculiar situation of the COVID crisis, we do not have any restriction for admission of exchange/international students at the moment, but the conditions might change and we will update the information when necessary.	Right now, we are accepting students at UPM. We are continuing with this during the year 2021. Of course, this would depend on the country restrictions. Also, maybe it can be more complicated to find a laboratory (now we have the laboratories partially open)
